

Fairfield Technologies Participates in DHI's Navy Seaport-e Contract Vehicle

Chantilly, VA- September 28, 2007--Fairfield Technologies Inc. (FTI) announces its participation as a subcontractor for the team led by Defense Holdings Inc. (DHI) for the U.S. Navy Seaport-e contract vehicle. As a Seaport-e subcontractor FTI is equipped to provide NAVSEA units support for full life cycle research and development, information technology advising, data modeling, and program management activities. For a full listing of capabilities please see the explanation of services under listed contract vehicles at www.fairfieldtech.com.

“DHI’s team is solid and ready to deliver to Navy organizations under Seaport-e,” said Kenneth Fried, FTI president. “FTI is pleased to be a part of this team to provide support for research, development, independent verification and validation, and related IT services as needed for the team’s clients.”
