

Fairfield Technologies Participates in DPMS' Navy Seaport-e Contract Vehicle

Chantilly, VA- March 30, 2009 --Fairfield Technologies Inc. (FTI) announces its participation with the team led by Davis-Paige Management Systems for the U.S. Navy Seaport-e contract vehicle. As a Seaport-e subcontractor FTI is equipped to provide NAVSEA units support for full life cycle research and development, information technology advising, data modeling, and program management activities. For a full listing of capabilities please see the explanation of services under ID/IQs at www.fairfieldtech.com.

“FTI is pleased to continue its presence on Seaport-e with the Davis-Paige Management Systems team,” said Kenneth Fried, FTI president. “Our performance draws from established, best-practices based protocols and processes that focus on higher efficiencies and lowered Total Cost of Ownership (TOC) for Navy programs.”
