

## **Fairfield Technologies Inc. Opens New Principal Office in Silver Spring, Maryland**

**Silver Spring, MD – April 2, 2007** --Fairfield Technologies Inc. (FTI) announces the establishment of its new principal office, located in downtown Silver Spring, Maryland. The new facility will serve as FTI's corporate headquarters, housing its corporate records repository and program management offices, with additional office and meeting space for project personnel located in the Maryland and Washington, DC commuting region.

The principal office provides services to FTI personnel supporting the National Weather Service at NOAA headquarters and those supporting research and development for other federal agencies in the immediate area. With access to both the Washington Metro and MARC commuter trains just four blocks away, FTI's new principal office location encourages additional mass transit usage by employees while supporting the ongoing renewal efforts of the Montgomery County government to increase small business presence in downtown Silver Spring.
